

PRODUCT OVERVIEW:

Neuro Reboot is a potent **tri-peptide bioregulator formula** designed to help **rewire brain function, refire metabolic processes, and reboot cellular regeneration**.* This advanced blend of **BPC-157, Tesofensine, and Dihexa** works synergistically to **restore balance at the cellular level**, helping you think clearer, feel stronger, and perform at your best.*

BPC-157 supports cellular repair and gut-brain health, accelerating tissue healing and reducing inflammation.* **Tesofensine** acts as a metabolic modulator, **optimizing neurotransmitter balance**, fat metabolism, and energy production.* **Dihexa** supports **healthy neuroplasticity**, helps support **memory retention**, and long-term **cognitive resilience**.* Together, these peptides **refocus your body's core systems-brain, metabolism, and cellular health to help create lasting transformation**.*

With Neuro Reboot, you're not just managing symptoms, you're **reprogramming the body's cellular signals** to optimize performance from the inside out.*

NEURO REBOOT KEY BENEFITS:

Cellular Renewal & Restoration - supports cellular integrity and healthy mitochondrial function, helping maintain efficient energy production.* Features BPC-157 to aid natural recovery and cellular health.*

Metabolic Activation & Support - encourages a healthy metabolic response, helping maintain energy balance and body composition.* Tesofensine supports neurotransmitter balance, which plays a role in metabolism and motivation.*

Cognitive Function Optimization - supports mental clarity, focus, and cognitive well-being by supporting healthy neuroplasticity.* Dihexa is known for its role in supporting neural connections and long-term brain function.*

Gut-Brain Axis & Microbiome Support - Helps maintain gut-brain communication and supports a balanced microbiome environment.* BPC-157 promotes gut health, which plays a key role in overall well-being.*

Cellular Vitality & Longevity - supports healthy aging and helps maintain cellular balance for overall well-being.* A synergistic effect of Dihexa, Tesofensine, and BPC-157 helps sustain cellular function over time.*

WHAT ARE PEPTIDES?

Imagine **unlocking the secret to youthful vitality** by improving your body's natural communication system.* As we age, our cells begin to lose their vibrational energy, leading to sluggish performance, visible signs of aging, and diminished overall health. **Peptide bioregulators are the game-changer your body has been waiting for.**

These **revolutionary molecules** act as **messengers within the body**, restoring the signaling capacity of your cells and helping them function like they did in their prime*. By addressing the **root cause of cellular dysfunction**, peptide bioregulators **recharge your body from within**, promoting enhanced energy, faster recovery, and a renewed sense of wellness.*

Peptides are the **future of health**—providing powerful, targeted support for optimal living while **making your current wellness supplements have an even greater impact on your health.***

WHO SHOULD TAKE NEURO REBOOT:

- **Individuals over 30** – Naturally, as we age, both cognitive function and metabolism naturally decline. Neuro Reboot is designed to support these processes and keep you functioning at your peak.*
- **Those Seeking Advanced Cognitive Support** – Optimal for anyone looking to enhance focus, improve mental clarity, and support brain health.*
- **People with a Slow Metabolism** – If you're looking to boost fat metabolism, support lean muscle, and reduce inflammation, this formula can help support those wellness goals.*
- **Athletes and Active Lifestyles** – Helps boost cellular recovery and energy production while supporting brain function and metabolic health.*
- **Anyone Looking for Improved Longevity & Overall Wellness** – For those looking to protect their cells from the natural damage of aging and support overall wellness, Neuro Reboot offers crucial cellular and genetic support.*

RESEARCH USE ONLY. NOT FOR RESALE.

Suggested Use: Scan QR for additional information.

Ingredients: Proprietary Peptide Blend (Dihexa, Tesofensine, BPC-157) 11 MG

Manufactured For: Biologistics, LLC
9020 N. Capital of Texas HWY
Suite 280, Building 1
Austin, TX 78759
Info@BioLimitless.com

KEY INGREDIENTS:

BPC-157 (Cellular Repair Specialist) - a powerful peptide that aids tissue regeneration, supports reduced inflammation, and actively works to enhance gut health.*

- **Supports enhanced tissue repair.***
- **Protects against neuroinflammation and improves gut integrity.***
- **Supports mitochondrial health and defends against oxidative stress thus working to improve cellular energy.***
- **Stimulates angiogenesis and helps boost collagen production.***

Tesofensine (The Metabolic Modulator) – a serotonin-noradrenaline-dopamine reuptake inhibitor (SNDR) that enhances neurotransmitter levels to support brain function and metabolism.*

- **Supports improved fat oxidation, fires up the metabolism, while working to suppress the appetite.***
- **Supports heightened cognitive function and enhanced mood.***
- **Supports healthy levels of dopamine, serotonin, and**

norepinephrine, improving focus, motivation, and metabolic efficiency.*

Dihexa (The Brain Restorer) - a molecularly small peptide that promotes neuroplasticity through synaptogenesis, therapeutic angiogenesis, cognitive function, and long-term memory.*

- **Rewires neural pathways by forming new synaptic connections.***
- **Boosts BDNF expression to support neuron growth and survival.***
- **Crosses the blood-brain barrier for direct brain support.***
- **Protects cognition by reducing neuroinflammation and oxidative stress.***

Rewire, refire, and refocus your body and mind with Neuro Reboot.

WHAT MAKES NEURO REBOOT UNIQUE?

Neuro Reboot is unlike any other cognitive or metabolic support formula.

In contrast to traditional supplements, **Neuro Reboot targets the root causes of metabolic and neurological dysfunction**, integrating cellular repair, metabolic activation, and cognitive enhancement into a single, peptide-based bioregulator formula.*

The combination of **BPC-157, Tesofensine, and Dihexa** is designed to **rewire the body's core systems—refiring metabolism, refocusing brain function, and recharging cellular energy** all at once.* Neuro Reboot's precision formulation ensures **maximum bioavailability and potency**, helping you optimize both short- and long-term health goals.*

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

THE SCIENCE BEHIND NEURO REBOOT:

The power behind the peptides in Neuro Reboot is **backed by research and clinical science** that demonstrates these peptides' efficacy in supporting **enhanced brain health, improved metabolic function**, and promoting **overall long-term wellness**.*

This proprietary tri-peptide blend—BPC-157, Tesofensine, and Dihexa—work in tandem to **activate essential pathways** to support cognitive enhancement, boosted fat metabolism, and advanced tissue repair at the cellular level.*

Studies on these individual compounds show significant benefits in areas like positive **inflammation support, improved neurotransmitter balance**, and **mitochondrial support**, which are all critical for maintaining youthful energy, focus, and cellular health.*

FREQUENTLY ASKED QUESTIONS:

How does Neuro Reboot work for cognitive enhancement?

Neuro Reboot works by stimulating neurotransmitter activity and supporting brain plasticity, which may enhance memory, focus, and overall cognitive function.* Ingredients like Dihexa and Tesofensine are proven to help improve neural pathways, leading to clearer thinking and better mental clarity.*

Will Neuro Reboot help with metabolism?

Yes! Tesofensine supports fat metabolism by enhancing fat oxidation, while BPC-157 supports mitochondrial function, which is essential for a healthy metabolism and energy production.* Neuro Reboot helps promote health goals without compromising muscle mass.*

Is Neuro Reboot safe for long-term use?

Neuro Reboot is formulated with clinically backed ingredients. Always consult with a healthcare professional before beginning any new regimen, especially if you have pre-existing health conditions.

Can Neuro Reboot help with healthy aging?

Neuro Reboot is designed to support cognitive function and protect against neuroinflammation, making it an excellent choice for those looking to maintain mental sharpness as they age.* The ingredients Dihexa and BPC-157 work synergistically to support long-term brain health.*

How long will it take to see results?

While individual results may vary, many users report noticeable improvements in energy, cognitive function, and overall well-being within the first few weeks of use.* Consistency is key to achieving optimal results.*

How can Neuro Reboot help me be healthier?

Neuro Reboot provides comprehensive support for cognitive health, metabolism, and cellular function.* By promoting mitochondrial health, enhanced metabolism, and brain restoration, this bioregulator helps restore balance to your body and mind, supporting a more energized, focused, and youthful you.*

FREQUENTLY ASKED QUESTIONS (CONTINUED):

Where do our peptides come from?

Our research-quality peptides are sequentially synthesized using naturally occurring amino acids, creating specific peptide bioregulators with 99% purity and maximum strength. Unlike plant-based peptides, which are derived from external sources and lack the precise bio-regulating capabilities your body needs, these lab-engineered peptides are specifically designed to mimic the body's natural cellular signaling molecules.

This precision ensures they deliver consistent and targeted support, helping to optimize cellular function and restore balance.*

These peptides are clinically proven to stimulate cellular activity, our peptides go beyond what plant-based alternatives can offer, providing unparalleled support for energy, recovery, and overall health.*

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.
