

STRONG OG

Nutrition for Your Life

PRODUCT OVERVIEW:

STRONG OG is a bioavailable, ultra-premium liquid antioxidant that contains 12 essential vitamins, over 65 plant-sourced minerals, whole-fruit mangosteen, organic glyconutrient-rich aloe vera and organic decaffeinated green tea for the ultimate nutritional foundation. STRONG OG is a clinically studied proprietary formula manufactured in a FDA-inspected facility with the highest quality standards. STRONG OG, which may be the most powerful liquid antioxidant available, was formulated to nourish your body on a cellular level.*

2 OZ OF STRONG OG DAILY:

- Provides immune boosting properties*
- Nourishes your body on a cellular level*
- Provides defense against free radicals*
- Creates abundant energy*
- Provides 100% ionic life-giving minerals

CLINICALLY STUDIED:

The STRONG OG Clinical Trials were conducted by one of the industry's most widely recognized experts in independent clinical testing: Brunswick Laboratories in Massachusetts. The intention of these studies was to evaluate the efficacy and overall bioavailability of STRONG OG on immune function and well-being in adults. This was done by subjecting the product to the highest standard of clinical research — independent, randomized, double-blind, placebo-controlled study.

People taking STRONG OG for 30 days showed:

- Significant improvements in immune markers*
- Lowering of C-Reactive Protein (CRP) - an important marker for inflammation*
- Superior antioxidant absorption*

KEY INGREDIENTS:

12 essential vitamins (including antioxidant vitamins A, C and E) — Vital for your health and well-being to help support your body's 63 trillion cells.*

Plant-sourced mineral blend — Over 65 major, trace and ultra-trace ionic, life-giving nutrients.

Phytonutrient ingredients — A blend of powerful plant and natural components.*

Whole-fruit Mangosteen — STRONG OG contains an abundant supply of whole-fruit mangosteen and beneficial pericarp (rind) extract that provides some of the highest quantities of xanthones found in nature. Xanthones are a phytonutrient that contain very potent antioxidant properties.*

Organic glyconutrient-rich aloe vera — A powerful phytonutrient known to provide the body with many beneficial effects.*

Organic decaffeinated green tea — For additional antioxidant power and phytonutrient protection.*

- Gluten Free
- No Artificial Sweeteners
- No Artificial Colors
- No Artificial Flavors
- No BPA Packaging
- No Soy
- No Dairy
- No High Fructose Corn Syrup

MANGOSTEEN SUPERFRUIT POWER:

Mangosteen is a rare superfruit primarily found in Southeast Asia and scientifically known as *Garcinia mangostana*. No relation to the mango, it has been hailed as the “Queen of Fruits” and has been used for centuries by Asian health practitioners for a variety of conditions.*

Of all the known sources for xanthones, the mangosteen supplies some of the highest amounts found in nature. Xanthones are a biologically active phytonutrient with very potent antioxidant properties.

The entire mangosteen fruit, including the pericarp (rind) and pulp, is utilized during Bod•ē Pro’s proprietary extraction process. This intricate method helps ensure that the highest levels of nutrients are included in the STRONG OG.

FACT

The mangosteen pericarp (rind) and pulp were traditionally used to concoct teas, juices and topical ointments.

THE SCIENCE OF MINERALS:

Your physical well-being can be more directly dependent upon the minerals you take into your body than almost any other factor. Minerals help support the health of organs, bones and the immune system.* Bod•ē Pro has a unique mineral blend to help your overall well-being.* It contains 100% ionic, life-giving minerals that are reduced to the smallest, most bioavailable form. Bod•ē Pro’s minerals are sourced from plant vegetation that has been undisturbed for thousands of years. These unprocessed phytonutrients include over 65 major, trace and ultra-trace, plant-sourced minerals.

- The body cannot survive without nature’s fundamental minerals, yet it cannot manufacture minerals. They must be obtained from the diet or through supplementation.
- Modern-day diets may lack the appropriate balance of minerals due to mineral-depleted soils and over-processed foods.
- Minerals are needed for energy production, protection from free-radical damage and other vital functions.*
- Minerals provide a foundation for your optimal well-being.*

STRONG OG PRICING:

Item Code	Item Description	Qty	One Price (USD)	QV
1001809	STRONG OG 1 Pack	2 - 32 oz bottles	\$64.95	30
1001813	STRONG OG 2 Pack	4 - 32 oz bottles	\$129.90	60

FREQUENTLY ASKED QUESTIONS:

Why supplement with STRONG OG?

The answer is simple — STRONG OG is an ultra-premium liquid formula that provides your body the nutrients it needs for peak performance.* Your body needs superior nutritional ingredients that work quickly to support its 63 trillion cells and fight the aging effects of free radicals.* Free radicals are unstable molecules that remove electrons from a healthy cell, destroying the cell in the process. Every day, your body's cells are being bombarded by these unstable molecules. Without a strong nutritional foundation, your cells may be more susceptible to free-radical damage; this proprietary formula helps protect your body from the effects of aging.*

Is it true that xanthones are the most studied group of compounds found in mangosteen?

It is true. This particular class of plant nutrients are highly, biologically active and are unique because they possess very potent antioxidant properties.* Of all the known sources for xanthones, the mangosteen supplies some of the highest amounts found in all of nature.

Why are major, trace and ultra-trace, plant-sourced minerals used?

Because plant-sourced minerals come from Mother Nature herself! Here's how it works: Plants assimilate minerals from the soil they are embedded in, and in the process, they become highly nutritious for humans to eat. Minerals can be found in nearly all foods that are grown in soil, but the problem is, modern-day food processing and overused croplands make it nearly impossible to get a wide spectrum of minerals from our diets. Bod•ē Pro's minerals are not man-made, but are carefully extracted from plant vegetation that has been undisturbed for thousands of years, to help replenish the full spectrum of minerals, at levels that nature intended. Major, trace and ultra-trace indicates a level at which a mineral might be needed within the body; however, it is not indicative of the importance of that mineral — all minerals are vital to life. In minute amounts, these nutrients can produce unexplainable, beneficial changes in body chemistry.*

Which minerals are included in STRONG OG's proprietary mineral blend?

The proprietary mineral blend contains over 65 major, trace and ultra-trace minerals. Because we source our minerals from naturally occurring plant vegetation, the level of individual minerals may vary slightly from batch to batch. The proprietary mineral blend in STRONG OG contains the following minerals: Carbon (Organic), Calcium, Sodium, Sulfur, Magnesium, Chloride,

Bromide, Fluorine, Iodine, Potassium, Niobium, Aluminum, Iron, Phosphorus, Silica, Manganese, Boron, Strontium, Titanium, Tungsten, Copper, Zinc, Tin, Zirconium, Molybdenum, Vanadium, Chromium, Selenium, Nickel, Cobalt, Lithium, Gallium, Barium, Yttrium, Neodymium, Hafnium, Cadmium, Thorium, Antimony, Cerium, Tellurium, Beryllium, Samarium, Dysprosium, Erbium, Bismuth, Gadolinium, Cesium, Lanthanum, Praseodymium, Europium, Lutetium, Terbium, Ytterbium, Holmium, Thallium, Thulium, Tantalum, Germanium, Gold, Platinum, Rhodium, Rubidium, Ruthenium, Scandium, Silver and Indium.

What is organic glyconutrient-rich aloe vera and why is it important?

Organic aloe vera is a powerful glyconutrient that originated in Africa and has been used for centuries because of its versatility and life-giving minerals, vitamins and polysaccharides. It is known to support immune function and provides antioxidant benefits for overall wellness.*

Why is organic decaffeinated green tea important?

Green tea is well studied and documented for its traditional use. Organic decaffeinated green tea is added to STRONG OG because it possesses numerous compounds that provide additional antioxidant protection and health-enhancing properties.* We elect to use a decaffeinated source to keep our consumers' best interest in mind since caffeine consumption may not be appropriate for everyone.

FACTS

*The human body produces over 300 million new cells each day.
In 2 ounces of STRONG OG, there are over 90 different nutrients.*
